

REMARKS

Claims 77-81, 84, 87, 89, 91-93, and 113-122 are pending. No new matter has been added. Independent claims 94, 100, and dependent claims have been cancelled without prejudice. New dependent claims 113-122 have been added to better define the invention. Support for new claims 113-122 can be found throughout the originally filed application. For example, page 4, lines 18-21 refer to arresting, protecting and/or preserving an organ by adding the inventive composition. Page 4, lines 22-24 describe "adding" to mean exposing the organ to the composition by various methods, and page 6, lines 16-19 refer to administering the composition.

It is believed that the application is in condition for allowance.

Respectfully submitted,
